

# FLEX XTRA

-  Oil-Based Penetrant
-  Water Conditioning Agent
-  Deposition Agent
-  Non-Ionic Surfactant

Dual water conditioning oil-based penetrant with nonionic surfactant properties and drift management

- Enhances herbicide penetration by softening cuticle waxes
- Sequesters hard water ions
- Buffers the tank mix to maintain a consistent pH
- Improves deposition onto target surfaces
- Enhances wetting, adhesion, and ensures uniform coverage
- Performs more effectively than ammonium sulfate (AMS) alone
- Outperforms crop oil concentrate (COC) at only half of the use rate
- AMS-free

## DIRECTION FOR USE

### NOT FOR AQUATIC USE

Follow the directions on the most restrictive active ingredient label. Tank mixtures should only be applied within the label recommendations of every product in the tank mixture. Use only if a COC and water conditioning agent is allowed or not excluded on the label. Use caution when applying during hot, dry conditions.

### USE RATE

Ground or Aerial: Use 2 to 8 pints per 100 gallons for most applications or 0.5% v/v.

### STORAGE

Store in a cool, dry place. Store in original container only. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product.

**STORE BETWEEN 40° AND 90° F.**

Manufactured By: 3420 E Harmony Road, Ste 122  
Fort Collins, CO 80528

## PHYSICAL PROPERTIES

	Appearance: Clear, golden
	Density: 7.31 lbs/gal
	Flash Point: >200°F
	pH with 342 ppm water: 3.2 @ 0.5%
	Surface Tension: 32.1 dynes/cm @ 0.5%
	Contact Angle: 52° @ 0.5%
	Draves Wetting: 77 seconds @ 0.5%
