

# HS-MSO

-  Methylated Seed Oil
-  Non-Ionic Surfactant
-  Penetrant
-  Wetter & Spreader

60/40 MSO-based product that is compatible with multiple tank mix partners. It is a soyoil-based product that spreads better than a standard MSO.

- Provides MSO & NIS in one container
- Spreads better than standard MSO products
- Meets herbicide label requirements for an HSOC
- Compatible with multiple tank mix partners
- Soyoil-based
- Improves tank clean-out

## DIRECTION FOR USE

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages and restrictions have precedence over DIRECTIONS FOR USE referred to on this label.

### USE RATE

Use Suvon HS-MSO at a rate of 8-32 oz./acre or .375-.75 percent by volume as a replacement for non-ionic surfactants and crop oil concentrates. The high end of the recommended use rate may be necessary during periods when plants are subjected to extreme stress or weed populations. Always add Suvon HS-MSO last to the spray mixture and provide good agitation.

### STORAGE

Store in original container only. Keep container tightly closed. Do not allow water to be introduced into the contents of this container. Do not store near heat or open flame. Do not store with oxidizing agents.

**STORE BETWEEN 45° AND 125° F.**
