

# HS-COC

-  Wetter & Spreader
-  Penetrant
-  Humectant

Proprietary blend of paraffinic oils and surfactants designed to enhance spray applications and performance.

- Replaces tradition crop oil concentrates and is formulated to be used at lower rates
- Improved leaf penetration and increased efficacy
- Improved humectancy
- Superior spreading and emulsifying qualities

## DIRECTION FOR USE

### SHAKE WELL BEFORE USING

Always add SuvoN HSOC last to the spray mix and continue agitation, unless directed otherwise by the specific pesticide label. Always follow the label of the specific pesticide for detailed adjuvant use directions.

### USE RATE

0.5 - 1 pint/acre or 0.5% v/v with postemergence pesticides that suggest or require the use of COC. Use higher rates if weed populations are dense or are stressed.

### STORAGE

Store product in original container. Do not store near heat or open flame. Do not reuse container. Do not contaminate water, food or feed by storage or disposal. Store in a cool, dry place away from oxidizing agents. Keep packaging closed, securely fastened and upright.

**STORE ABOVE 40°F**

Manufactured By: 3420 E Harmony Road, Ste 122  
Fort Collins, CO 80528
