

-  Humectant
-  Methylated Seed Oil
-  Penetrant

Precise blend of refined oil and surfactants designed to enhance spray applications and performance.

- Effectively dissolves the leaf cuticle for improved control of drought stressed weeds.
- Improved humectancy
- Improved efficiency and speed of leaf penetration and pesticide absorption

### DIRECTION FOR USE

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages and restrictions have precedence over DIRECTIONS FOR USE referred to on this label.

### USE RATE

Use Suvon MSO at 1.5 - 2.0 pints/acre with postemergence pesticides that suggest or require the use of COC/MSO. Some labels may suggest using MSO at 1 - 1.5% v/v, and the higher use rates should be used if weed populations are dense or are stressed. Always follow the label of the specific pesticide for detailed adjuvant use directions.

### STORAGE

Store product in original container. Do not store near heat or open flame. Do not reuse container. Do not contaminate water, food or feed by storage or disposal. Store in a cool, dry place away from oxidizing agents. Keep packaging closed, securely fastened and upright.  
**STORE ABOVE 40°F.**

Manufactured By: 3420 E Harmony Road, Ste 122  
 Fort Collins, CO 80528
