

WINTER STORAGE PRECAUTIONS

Proper storage of nutritional products is essential to maintain the shelf life of the products and to ensure their best performance. Cold temperatures present a special set of challenges to the integrity of these products. Some liquid nutritional products can crystalize, separate, or fall out of suspension. **It is critical that these products be kept from freezing over the winter months.**

Please see the following storage temperature chart for Innova and Performance Nutrition products. **Remember, any liquid nutritional product that is stored over winter regardless of how it was stored should be thoroughly shaken or recirculated before use.**

Product	Estimated Product Weight LB. / Gal.	Minimum Storage Temperature
BackSpin™	11.3	Above 32° F
Chrome®	9.7	Above 32° F
Chrome® Flex	10.5	Above 32° F
Chrome® SR	9.67	Above 32° F
Hype®	9.6	Above 32° F
Hype®-D	9.6	Above 32° F
Trifecta®	11.2	Above 32° F

Product	Estimated Product Weight LB. / Gal.	Minimum Storage Temperature
Agra-Rouse™	8.4	Can freeze, will thaw
Argosy® RF	8.4	Above 32° F
Incite™	8.4	Can freeze, will thaw
KaPre® Embella	8.6	Above 32° F
KaPre® Exalt	9.3	Above 32° F
KaPre® Impact	9.5	Above 32° F
KaPre® Kelp Plus	8.5	Above 32° F
KaPre® PhoNix	10.6	Can freeze, will thaw
KaPre® Spectra	9.3	Above 32° F
KaPre® Spectra OC	9.6	Above 32° F
Kelpene® GPX	8.7	Above 32° F

Product	Estimated Product Weight LB. / Gal.	Minimum Storage Temperature
Kelpene® CSW	8.7	Above 32° F
Kelpene® Ca	9.1	Above 32° F
Krystal Klear® Agra Mix II	10.7	Can freeze, will thaw
Krystal Klear® Agra Mix III	10.7	Can freeze, will thaw
Krystal Klear® B	9.6	Above 32° F
Krystal Klear® Ca	10.8	Can freeze, will thaw
Krystal Klear® Crop Mix II	10.3	Can freeze, will thaw
Krystal Klear® Cu	10.2	Can freeze, will thaw
Krystal Klear® Fe	10.6	Can freeze, will thaw
Krystal Klear® Mg	10.7	Can freeze, will thaw
Krystal Klear® Mn	10.8	Can freeze, will thaw
Krystal Klear® Zn	11	Can freeze, will thaw
LidoQuest® Mn	10	Can freeze, will thaw
LidoQuest® Zn	10.6	Can freeze, will thaw
Prudent® 40PLUS	11.7	Above 40° F
Prudent® 42CW	11.5	Above 40° F
Prudent® RX	9	Can freeze, will thaw

TIPS TO REMEMBER

- Any liquid nutritional product that is stored over winter regardless of how it was stored should be thoroughly shaken or recirculated.
- For bulk product storage over 1000 gallons, please consult your Innova representative for proper storage guidelines.
